Video Lecture Reflection (VLR)

1 Fluency Point (FP) Each

Description:

While you're watching a YouTube lecture video for an upcoming live class, take notes – and reflect – on a paper-based notebook or tablet (just like pre-COVID – remember that?). Save your notes/reflection as PDF, JPG or PNG, and submit on Gradescope before the start of the next class (1 pm CST on Mon, Wed or Fri).

Deliverable:

A PDF, JPG or PNG file containing your notes and reflection.

Content Rules:

- Your VLR must show strong evidence of thoughtfulness and details
- Your VLR should contain what you've just learned (i.e., the technical content, including sketches, equations, etc.), _as well as_ a written evaluation of your learning that has occurred in your mind (i.e., discovery of your own cognitive learning)

Formatting Rules:

- You must sign and date at the top or bottom of each page of your VLR
- If you have more than one page (or more than one file), you must also put a page number at the top or bottom of each page
- There's no requirement of minimum or maximum number of pages
- If your reflection is hand written, they must be legible
- Your digitized notes must be of sufficient resolution and quality
- Your digitized notes must be in the "vertical flow" orientation, i.e., not requiring the reader (Dr. Siow or the TA) to rotate their head
- Your notes must be based on the lecture video for the _next_ live class – see course homepage's "Calendar Central" for which VLR # goes with which video

Submission:

Submit a PDF, or any number of JPG/PNG, on Gradescope. Submissions by email or other means will be disregarded.

Due at the start of the next live class, i.e., at 1:00 pm CST on MWF.

Late submissions will be subject to the "half-life" reduction policy according to the syllabus.

Grading Rubric:

1 FP: If _all_ the content and formatting rules outlined above are satisfied
0 FP: Otherwise
